SUMMARY

Strengths include a strong customer focus and a keen ability to foster productive, cross-functional relationships. I believe that there is no limit to the cognitive ability of the ideal employee to learn new skill sets; and that the most important aspect of a good IT professional is interpersonal skills that complement one's technical competencies.

PROFESSIONAL EXPERIENCE

Green Planet Productions

June 2009 – June 2010

Technical Director

- Responsible for all web-related projects including implementation, on-line marketing, and project development.
 - Leveraged team resources and abilities to facilitate the construction of eight websites in twelve months.
